crossout insomnia pack

Fun game but DESPERATLY needs Snap Turning on VIVE. PLEASE. It's a fun game. It's also very difficult. Even in casual I struggled to progress through the game. And I recently beat Nioh and Dark Souls 3 and.... I enjoyed every single Zup! game. Pretty cool physics and very generous **achievements**. Get the bundle, totally worth it. 10/10. There is no solution for invert mouse.. I love golf i Recommend this :)

Watchmen feels like it was thrown together in a few weeks to coincide with the theatrical release; its an arcade brawler featuring uninspired level design, rather generic enemies, a ho-hum story, and a short 3-5 hour playthrough. However, where the game excels (and should) is in the fighting engine and brutal finishing moves, from Rorschach in particular. Beating up bad guys is extremely fun... and there is enough move variety to keep it interesting. Nite Owl's fighting style is different enough to warrant a playthrough as each character. The co-op mode is a joke as its on the same PC. Definitely worth getting on-sale to burn through in a weekend.. It's a fun puzzle game with incredible audio assets.. Magnificent game! Definitely worth it, a game that only took less than 12 hours to beat at level 30. Would most likely play again at a harder difficulty and to see the rest of the story (and the secrets that come with it). No technical difficulties, having to download mods, or incompatibility issues throughout the game as it would seem by many and even at low-med settings it still looks amazing (preferably played on high :). If you like big scale RTS this one is MASSIVE. Played this on internet version for about another 40 hours. I bought it and just remembered how awesome it is.

If you're a fan of roguelike genre this is for you.. It's, okay, just a wave shooter in the dark. It isn't too bad but a bit pricey for the amount of content it has.

If you find it on sale, sure, go ahead and grab it.. UPDATE 12/24/2017: Developers up and abandoned the game. This had ALOT of potential to it. Sad to see!!! And HIGHLY DISAPPOINTED!!!!

It still is a fun game, but it is DEAD. I think I am the only one around still playing it.

I would still recommend it, but ONLY while on a discount.

As stated above, developers left it so do not expect any updates from them.

After 120 hours playing this game (2nd most in my library, behind FSX) I thought I would write a follow up review.

The developers hqave did an awesome job on the game. They fixed a lot of the bugs. There is still a lot of potential in the game. The last update was at the end of August. It is now almost the middle of November. Hoping they add more soptions to the game. That is the part that it lacks, the variety of options to do in the game. Also there is almost a 2 minute wait time to start a race, wish they would knock that down to like 30 seconds. There are a few things in the game that say "coming soon" so hopefully the developers are working on things :)

My overall opinion as of 120 hours later. If you like racing and a semi-manageristic game, you will like this. Like I said, there is not many options to choose from in the game to do. So don't give high hopes. I WOULD recommend the game. I have invested 120 hours into it. So you know I like it :) And going to spend many more hours in game. I look forward to the developers adding things in the future. They do listen to the fans, which is something you don't get from developers much these days. So that is an added bonus!

I would recommed the game. Especially if it goes on sale!

I been playing it for a bit now and I can definitely see alot of potential. I was hesitant on spending \$20 for the game, but decided to buy it to give it a spin. As you know right now it is still in the developing stages and is being updated often. Which is a good thing. It is pretty nice to be the pit crew chief and tell the driver what to do. You have various views. My favorite view is inside the car. There is a lot more players now, so theres more competition.

Theres a few things I wish they would add in the future:

Single player mode

More laps, so you have more than 1 pit stop

Overall, they have been working on the bugs and glitches and been doing a great job at it. And I plan on playing this for a very long time.. Just like Timberman but instead of chopping trees, your minning.. Pretty much a clone just a different dev.. Looked like a decent game, but it's too "click here" . To pass levels you have to click various places.. not so great.. Experience with the possibility of interaction.

Voting for a girl makes a lot of fun.

The moment of their presentation is less interesting.

Taking pictures is an interesting idea, it requires a little improvement but it's fun.
